3:45 CARRIER OFF.

Confirmed - Wm L. Peters C.E. KKLS Am/fm

The last time that I have heard your facilities was way back on 11-26-62 under the old call of KEZU. Your Engineer was on for our radio clubs for a special DX Test Program with music & tone with many ID's. Signal level was about the same both times. Normally KFNF in Iowa controls 920 Kcs here in Omaha!

I also missed your schedule last Monday Morning so was happy you overslept for last weeks test. Got a good catch this morning. Is this check made every three months at the same time? Yes Who checks your frequency--Denver or Lee's Sumit

Receiver: Hammarlund, HQ-180-A 18 tubes. Signal strength: S-9 plus 10db; steady
Antenna: Directional 40" square Loop, pointed toward: Rapid City
Interference: Station Unknown, but very weak
Atmospheric noise: Slight Fading: Slight Readability: 100%
Omaha temperature: 47 degrees. Weather: Clear and cool.

I shall be pleased to hear from you in reply to the above report, and to receive a letter of verification, stating the date & time of my reception, for which RETURN POSTAGE is enclosed. Do you also have an extra COVERAGE MAP available? Sincerely thanking you, I am.

Reception Report # 74-78

Total Verifications from Omaha: 1479

Very truly yours and 73's,
Ernest J. Wesolowski
